Ideation Phase

Brainstorm & Idea Prioritization

Date	26-09-2026
Team ID	23KD1A0462
Project Name	Incident Lifecycle Automation in ServiceNow
Maximum Marks	4 Marks

Brainstorming and Idea Listings:

Problem Identification:

Untracked incidents	**Misclassification**	**Resolution delays**
Incidents reported through emails or calls may be difficult to track.	Incidents may lack proper category, priority, or assignment information.	Delayed escalation can affect resolution progress and SLA tracking.

Brainstormed Features:

Idea 1	**Idea 2**	**Idea 3**
Structured incident creation and centralized incident records.	Automatic incident classification and priority assignment.	Workflow-based assignment and status tracking.
Idea 4	**Idea 5**	**Idea 6**
Knowledge Management integration for faster resolution.	Reassignment and escalation workflow when required.	Change Management integration and root-cause tracking.

Key Objectives:

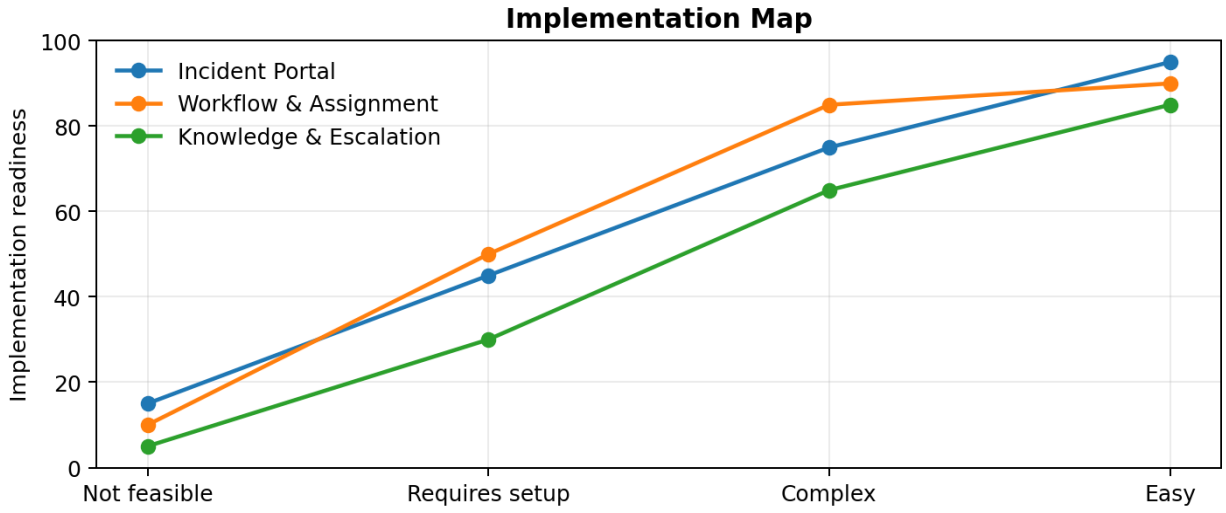

• Standardize incident creation, classification, assignment, and tracking.

• Automate incident workflows to reduce delays and improve resolution visibility.

• Integrate Knowledge Management and Change Management for efficient issue handling.

• Support timely escalation and root-cause tracking to improve IT service efficiency.

Implementation Map:

Idea Prioritization:

Priority	Feature	Reason
High	Incident creation, classification, and assignment	Core functions required to capture incidents correctly and route them to the appropriate team.
High	Workflow automation and status tracking	Helps monitor incident progress, automate activities, and reduce delays in resolution.
Medium	Knowledge, escalation, and change integration	Supports faster troubleshooting, timely escalation, and improved root-cause tracking.
